CAREER SUMMARY

Senior Angular Developer with **3.7+ years of experience** building **scalable enterprise web applications** using **Angular (6–20)**. Expert in **NgRx state management**, **RxJS**, **Signals**, **Standalone Components**, and **performance optimization** for **large-scale SPA systems**. Experienced in **Angular migrations**, **REST API integration**, and **CI/CD pipelines**. Delivered **high-impact campaign systems** supporting **100K–400K+ users**.

SKILLS

Frontend

Angular (6–20), TypeScript, JavaScript (ES6+), Angular CLI, RxJS, NgRx State Management, Signals, Standalone Components, Lazy Loading, Reactive Forms, Angular Material, PrimeNG, HTML5, CSS3, SCSS, Responsive Web Design, Single Page Applications (SPA)

Backend

Spring Boot, RESTful API Development, CRUD Operations, Microservices Concepts, JPA/Hibernate, Liquibase Database Migration, MySQL, JWT Authentication

Architecture & Performance

Component Lifecycle, Dependency Injection, Reactive Programming, Modular Architecture, Micro-Frontend Concepts, Performance Optimization, Change Detection Strategy

DevOps & Tools

Git, GitHub, Jenkins CI/CD, Docker, Postman, Swagger

Practices

Agile Scrum, Debugging, Cross-Team Collaboration, System Troubleshooting

WORK EXPERIENCE

Infosys - Senior Angular Developer, Bangaluru

Oct 2022 – Present

Working on enterprise-scale web applications using Angular and Spring Boot technologies, delivering scalable and high-performance solutions in Agile environments.

Projects Overview

INFOSYS MARCOM – CAMPAIGN MANAGEMENT SYSTEM

Jun 2023 – Present

Enterprise campaign automation platform that enables organizations to design, configure, and execute large-scale communication workflows across Email, SMS, and IVR channels.

Key Responsibilities & Achievements

- Developed a **graph-based campaign builder UI** enabling users to visually design workflows with interconnected nodes such as **audience, templates, personas, and communication channels**.
- Integrated **25+ automated workflow nodes** supporting **conditional routing, branching logic, and multi-channel campaign execution**.
- Delivered **large-scale bulk communication campaigns** handling **100K candidate interview campaigns** and **400K+ alumni communications**.
- Implemented **MJML-based email template editor** enabling **responsive email design and bulk campaign delivery**.
- Led **Angular migration from Angular 6 to Angular 20**, refactoring deprecated APIs and improving **application stability and maintainability**.
- Implemented **NgRx state management** for complex workflows ensuring **predictable data flow and state consistency**.
- Utilized **Standalone Components, Angular Signals, and Lazy Loading** to build a **modular and high-performance Angular architecture**.
- Optimized **Angular change detection and rendering performance**, improving **UI responsiveness by 30%** for large workflow graphs and datasets.
- Contributed to **Spring Boot backend development**, implementing **REST APIs and CRUD operations** for campaign-related services.
- Resolved **cross-layer issues across Angular UI, Spring Boot APIs, and MySQL database**, ensuring **stable end-to-end system performance** and supporting **CI/CD pipelines using Jenkins**.

INFOSYS URL SHORTENER – INTERNAL LINK MANAGEMENT PLATFORM

Feb 2023 – Jun 2023

Developed a full-stack web application for generating and managing short URLs used in internal campaigns and communication tracking.

Key Responsibilities & Achievements

- Developed Angular-based dashboard for **short URL creation, management, and analytics tracking**.
- Built **Spring Boot REST APIs** for short URL generation, redirection handling, and click analytics tracking.
- Implemented CRUD operations for URL management and validation logic.
- Designed and updated **MySQL database schema** using Liquibase change sets.
- Implemented **JWT-based authentication** to secure application endpoints.
- Debugged and resolved API integration issues between Angular frontend and Spring Boot backend.
- Integrated **Jenkins CI/CD pipeline** for automated builds and deployments.

E-COMMERCE APPLICATION (ANGULAR + SPRING BOOT)

Oct 2022 – Feb 2023

Developed a full-stack e-commerce web application implementing product catalog management, cart functionality, and order processing.

Key Responsibilities & Achievements

- Developed modular **Angular SPA using reusable components and lazy-loaded modules**.
- Implemented **NgRx state management** for cart and order workflows.
- Built **Spring Boot REST APIs** for product, cart, and order management.
- Implemented CRUD operations using **JPA/Hibernate with MySQL database**.
- Managed database migrations using **Liquibase**.
- Implemented **JWT-based authentication and role-based access control**.
- Performed API testing and validation using **Postman** to ensure proper frontend-backend communication.

EXPENSES TRACKER APP (REACT + TYPESCRIPT + CAPACITOR)

Oct 2022 – Feb 2023

Offline-first personal expense tracker application designed for web, PWA, and Android platforms, enabling users to manage daily expenses, budgets, and financial insights efficiently.

Key Responsibilities & Achievements

- Developed modular **Angular SPA using reusable components and lazy-loaded modules**.
- Developed responsive application using **React, TypeScript, Vite, and Tailwind CSS**.
- Implemented **expense management, category management, and dashboard analytics** with interactive charts.
- Built **offline-first architecture** using **Dexie + IndexedDB** for seamless local data storage.
- Added **monthly budget settings, currency configuration, and alert threshold features**.
- Implemented **JSON backup import/export, Excel export, and PDF report generation** functionalities.
- Integrated **PWA support** and built Android application using **Capacitor**.
- Used **Zustand** for state management and **React Hook Form + Zod** for form validation.
- Developed reusable components and optimized application performance for smooth user experience.
- Implemented **Light, Dark, and System Theme support** for enhanced UI accessibility.

EDUCATION

Jawaharlal Nehru Technological University, Anantapur

July 2018 – Jun 2022

Bachelor of Technology in Electronics and Communication Engineering- 75%

CERTIFICATIONS

- Infosys Certified Angular Professional
- Infosys Certified Front End Web Developer
- Infosys Certified Angular Web Developer
- Infosys Certified Spring Microservice Developer
